Beweship is building a logistical centre in Latvia

Beweship Latvia SIA is building a logistical centre in the town of Marupe in Latvia.

The total area of the facility is 10 000 m², of which 9 000 m² are logistical facilities and 1 000 m² office facilities. The construction work has been initiated and the facility will be ready at the end of year 2007.

SRV Terbelat is in charge of the construction work.

Beweship Latvia SIA was founded in 1998 and is a part of the Beweship Group. Beweship is an independent Finnish freight forwarding and transportation company founded in 1957. Our field of activities range from regular road-traffic to / from all European and Baltic countries to air, sea and railway transportation, customs clearances, distribution and logistical services, project logistics and international removals. Through our network of partners we guarantee excellent service all over the world.

The Beweship Group turnover was 60 million euros in year 2006 and we employ nearly 300 people. Along with our head quarters in Vantaa we have offices in Tampere, Turku, Vaasa, Oulu, Jyväskylä, Joensuu and Vaalimaa. We also have subsidiaries in the following countries: Estonia, Latvia, Lithuania, Poland and Hungary.

SRV Terbelat is the Latvian subsidiary of SRV International Oy, a member of the SRV Group. SRV International Oy is a property development company and project leader in the Baltic and Russian market specialized in building shopping centres, offices, hotels and various production and logistical facilities.
