

SIA "BEWESHIP LATVIA", during a 10 year period of the activity in Latvia, has gained a stable position in the field of freight forwarding business. We are providing the existing and the potential clients all-embracing, flexible choice of logistic services that are being improved and expanded every year.

We announce with pleasure that from January 1, 2008 BEWESHIP has opened a new logistic centre in Latvia.

The new 10,000m² logistic centre and 1000m² office is situated in Marupe, ~5 km from Riga airport and ~ 3km from Riga ring road. The convenient site allows us to provide flexible and good quality logistic services.

We offer professional terminal services in modern, heated warehouse equipped with the newest technologies.

Your shipments will be safe with us! It is ensured not only by a safe guard system but also by experienced and qualified staff, whose work guarantees convenient, quick and punctual clients' service.

The choice of the terminal services includes:

- discharging and collection of the cargoes appropriately to specification;
- accommodation and storage of the goods appropriately to the cargo qualities;
- completing and labeling of the cargoes;
- overnight deliveries in all Baltic States;
- guarantee of the necessary reports in the form convenient for the client;

We offer the clients full logistic service. Apart from transport and terminal services we:

- process the cargo documentation;
- perform the customs formalities;
- consult and find the best and most convenient solution and guarantee kind and professional attitude!
