

ENVIRONMENTAL POLICY

The Beweship Group produces and markets high level international transports by air, sea and road. The company also offer value added logistical services and international removal transports.

Beweship's management and staff are committed to environmentally sustainable practices and to ensure the efficient use of Earth's natural resources. Our aim is to fulfil our clients requirements efficiently and by taking into consideration environmental aspects. All staff regularly receive information concerning environmental matters. Environmental guidelines are included in Beweship's Operational Manual.

The long-term effects of this policy is intended to reduce the overall environmental impact by seeking more optimal solutions and to increase environmental awareness amongst the management and staff of Beweship.
